Technical Skills

Languages: C, C++, Python, HTML, CSS, JavaScript, SQL

Proficiency: DSA, Problem Solving

Developer Tools: VS Code, Jupiter, Sublime Text, Git, Github

Technologies/Frameworks: Linux, React.js, Node.js, Express.js, React Native, Next.js

DataBase: MySQL, MongoDB

Experience

FrontEnd Developer Intern

May 2024 – August 2024

Technical Hub

surampalem, Kakinada

- Developed both static and dynamic websites using **HTML**, **CSS**, and **JavaScript**, focusing on creating visually appealing and user-friendly interfaces.
- Efficiently detected and fixed bugs and performance problems, guaranteeing seamless, smooth and uninterrupted web application performance.
- Used **GIT** for version control, contributing to a collaborative workflow and maintaining a clean and organized codebase.

C++ Intern

May 2023 – August 2023

Technical Hub

Surampalem, Kakinada

- Assisted junior students in grasping and applying **C++** programming principles.
- Facilitated instructional workshops and technical tutorials on **core programming** subjects, including object-oriented programming, data structures, and algorithm design.
- Provided one-on-one mentorship to guide students with their coursework.

Projects

Home Aura | MERN Stack (React.js, Node.js, Express.js, MongoDB) Next.js, WebSocket

October 2024

- Developed a **full-stack** e-commerce website using the MERN stack, implementing key features like user authentication, dynamic user profiles, email notifications, and OTP verification for secure and efficient user management.
- Integrated **Socket.io** for chat functionality, allowing users to effectively collaborate with designers to customize their products in real-time.
- Utilized **MongoDB** for efficient data storage and retrieval, ensuring seamless handling of user profiles, product data, and transactional information.

Contest Remainder | HTML, CSS, JavaScript, API | GitHub

July 2024

- Developed and Implemented a **dynamic responsive website** to provide contest reminders and direct links to various coding platforms with optimal performance and usability across different devices and screen sizes.
- Utilized browser **Local Storage** for data persistence and authentication, ensuring efficient data management and a seamless user experience.
- Integrated external **APIs** to fetch and display real-time contest data from multiple coding platforms.
- Implemented an intuitive **To-Do list**, enabling users to effortlessly add, manage, and remove tasks, enhancing productivity and task organization.

Certifications

- RedHat System Administrator
- C, C++ Languages
- Python, HTML, CSS, Java, JavaScript

- RedHat
- Cisco Networking
- IT Specialist

Coding Platforms

- Solved **380+** problems in **Leetcode**
- Solved **160+** problems in **GeeksforGeeks**
- 5 Star** Badge of C, C++, Python and **3 Star** Badge Problem Solving at **Hackerrank**

Achievements

- Received **merit** Certificates from Dept
- Top **10th** place nationally in the Hack-a-Thon competition at SRKR Engineering College.

Education

Aditya Engineering College

Expected Grad 2026

Bachelor of Science in Computer Science — 9.31 till date

Surampalem, Kakinada

KSN Junior College

June 2020 - May 2022

Intermediate - MPC — 9.39

Samalkot, Kakinada
